📅 Sept 2019 - Sept 2023

Professional Experience

Warmadewa University Website

Developed and maintained the official university website with a focus on responsive design, user friendly navigation, and optimized performance to enhance the digital experience for students and visitors.

Buduk Village Information Website

Designed and developed an informative village website to improve public access to local news, government services, and community information with an intuitive and responsive interface.

Denpasar City Government Profile Website

Built the official profile website for Denpasar City and its government departments, providing accessible public information through a modern, responsive, and well structured platform.

Project Portfolio

Denpasar City

Developed the official city profile website to provide accessible public information through a modern and responsive platform.

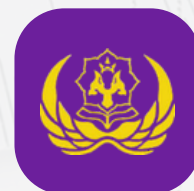

Buduk Village

Built an informative village website to improve access to local news, public services, and community information.

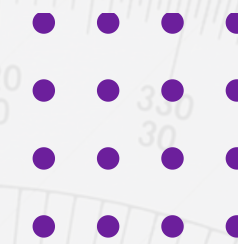

Berita Bali

Developed an online news portal with a clean, responsive design for delivering up to date and engaging news content.

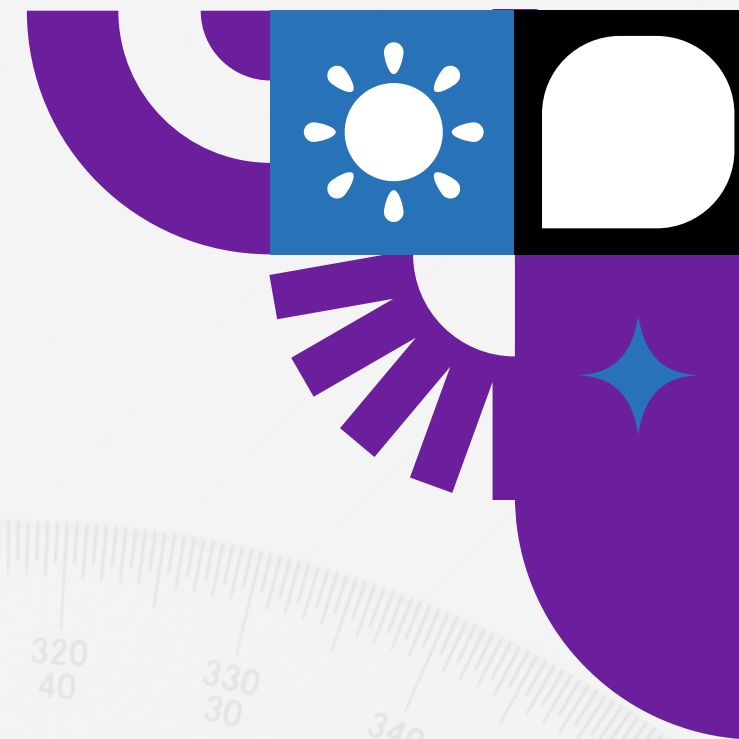

Warmadewa University

Developed the official university website with a focus on usability, responsive design, and an enhanced digital experience.

Let's Work Together

Have a project in mind or want to discuss new opportunities? Feel free to reach out. I'd be happy to connect and collaborate with you.
